Appuyer to stay, prop, support, brist up, &c.

S.^r I have been told you have a great many curiosities
 here; I pray you may a stranger have the favour of seeing
 them.

S.^r you may see them when you please but y^e orders
 of this place require y^t no man displace any thing.

That is but reasonable; & he that cannot com=
 mand his fingers, deserves not to see any rarities.

E. Will ^{you} please to take y^e trouble to walk up,
 for our collection is above.

Humble servant S.^r
 I pray, what is that like a cradle, is't not a sled
 to travel upon y^e ice?

E. That it is; such as y^e countrymen use in Sweden &
 other place: but there's an iron cradle wherein
 King Henry, 6. was rock'd.

G. Is't possible? methinks iron cradles should be too
 cold; ~~for~~ But it seems they would make a ^rlike
 Prince of him. What are these?

E. They are Indian Boracchio's made of Buffelo's skin hides
 wherein they carry their butter & oyf.

G. Very well; those I presume are fishing boats from
 Groenland.
